

VETERANS SERVICES

In accordance with the nationwide initiative JOINING FORCES, New Vitae Wellness and Recovery is honored to partner with the Department of Veterans Affairs to provide services to veterans in need.

New Vitae offers comprehensive behavioral health services and supportive residential opportunities to veterans who experience long term challenges with recovery goals. Physicians, therapists, mentors and other staff with experience of service in the armed forces coordinate holistic and individualized services within our continuum of care and are responsive to the unique needs of veterans. Our services are trauma-informed and person-centered in order to promote progress toward each veteran's personal goals.

Please contact our Admissions department for individual information on our array of services.

We are a resource to:

- Homeless Veterans
- Veterans Courts
- Veterans on assisted living wait lists
- Veterans in domiciliary care
- Veterans in transitional housing programs
- Veterans experiencing behavioral health concerns
- Veterans experiencing behavioral health challenges secondary to early onset dementia and/or memory loss and poly trauma
- Veterans experiencing addiction struggles
- Veterans interested in community reintegration
- VA Mental Health Treatment Coordinators (MHTC)
- Mental Health Intensive Case Managers (MHICM)
